From the Principal

Greetings, As you may know our students have started the various state examination. The **Aims Science Test** was given to the 8th and 10th grade during the last week of March. All grade levels will be required to take the AZ-Merit Exam which be from **April 2nd** until **April 26th**. Parents I really encourage you sending your child to school so that they can take the mandatory test on their selected days and dates.

.....And so it has begun

The middle school girls basketball games have begun. The baby mustangs have started off very strong as of the release of this publication undefeated at 4-2. The team is coached by D. Taylor who also coaches the varsity girls team. If you remember she lead our varsity girls team to a 13 and 1. That team was 1 game short of reaching the state championship game. The middle school players have shown that same fight and grit that the varsity girls had shown during the season. The team is lead by 8th grader Celeste James and 7th grader?

A Word from the Dean's Office:

Testing season is here.

As reminder Starting in April is **AZ-Merit** testing for all students beginning the second week of April. The first series of testing will be Science. The following weeks will be Math, Language Arts (Reading and Writing) . Please make sure your child is getting enough sleep and are eating so they can focus and have the energy to do their very best on the exam. Tips for a successful exam always get a good nights rest the day before each the exam and always eat a good breakfast before the exam foods like oatmeal, fruit and always drink plenty of water. Good Luck!
