Dear Mustang Parents/Guardians and students,

I am extremely excited to be here at Skyline Gila River and to serve as your Principal. It is my goal and vision to create maximum opportunities for our students to reach their career goals. I believe every student can learn and is entitled to a great education!

Some of the programs we have already put in place for this year include Spanish, robotics, volleyball, Leader in Me and strength and conditioning. We will continue to add to our academic, athletic and arts programs over the course of this year.

I also have a vision to bring more dual enrollment college classes to Gila River for our students to take advantage. Students who participate in college dual enrollment classes get high school and college credits at the same time. We hope to add Psychology 101 and Spanish 101 during the second block this year. In the near future, it is my goal for at least half of our students to earn a year of college credits before leaving high school.

In order to maximize student achievement and learning we will have two big points of emphasis; attendance and behavior. Students cannot learn unless they are in class! We also want to minimize distractions in the classroom by making sure students putting their cell phones in their backpacks.

Every student will take a quiz weekly in each subject to ensure that they are learning what is being taught. Every student that does not score a 70% passing grade on their quiz will be required to come on Fridays to work with their teachers in a smaller environment and master the material.

Our theme for the year is, "What gets measured gets improved." We want every student to grow in their learning every day. My goal is that we become an A school in the next two to three years.

I am excited to meet you and your families in the coming days. Together, we can make a huge impact on the future of our students.

Sincerely,

Keith Brown

School Culture...

- There has been a school wide warning issued about Vaping and Tagging. At Gila River, we have zero tolerance for Vaping or Graffiti
- Anyone caught tagging or destroying property will be suspended for at least the rest of the block (possibly the year). This is for the first offense.
- Anyone caught vaping will serve out of school suspension for two days for the first offense. The consequences for subsequent offenses will be determined by the administration.
